Remote-maintenance Siemens-S7-PLC with PN-Port

Remote-maintenance of a Siemens-controller with network-connection via secure VPN-tunnel of the TeleRouter

## Worldwide remote-access thanks to our own cloud

Worldwide remote-maintenance without additional costs thanks to our own cloud

Your devices connect to your own cloud, no matter where they are in the world. Only your devices are in your own private cloud, no one else has access to the cloud. In addition, you can provide each device with its own connection-password, so that the individual systems are protected despite the private cloud.

No registration on any portals, no hidden additional costs, your devices in your own cloud are always accessible.

This is how remote maintenance/remote access is fun.

## Connect MPI / Profibus with current network panels

Visualize with the latest S7 network panels directly on your MPI Profibus.

No PLC change necessary.

Connect several nodes at the same time via a network module.

Simultaneous access from different systems possible.

Display diagnostic-buffer without Simatic-Manager
---

[illegible]

Via the connection-menu and the included bus-device-display, it is possible to display the diagnostics buffer of the respective device without having to open Simatic-Manager or TIA-Portal separately.

The data received from the module is output directly in one piece without the hassle of changing tabs. All data at a glance.

Wireless around the Allen-Bradley-PLC

Move wirelessly around the Allen-Bradley-PLC and communicate for example ONLINE in the status

## S5 to S5

Coupling S5-controller with PD-port at S5-controller with PD-port via network

## S5-PLC over WLAN/WIFI

Communication with S5-PLC via WLAN/WIFI, just how and with what?

Data-communication with S5-PLC from PC or other devices via WLAN/WIFI, which interface is required. Questions you don't have to worry about. With "S5 over WLAN/WIFI" you get the right interface-products for your interface of the PLC.

Which one you use then is up to you.
